## Bunk Request Form

Cabins assignments are made based upon a camper's gender at birth, age, and school grade. In addition, we take into account each camper's hometown, school, or country of origin and strive to maintain a balanced mix of new and returning campers.

Making new friends and getting to know people from different places with different life experiences is one of the truly unique benefits of attending an overnight summer camp. We also recognize that coming to camp with a friend is exciting and bolsters confidence. To ensure each camper has the opportunity to meet new friends as well as provide the best experience for all campers in the cabin, we have established the following bunk request guidelines:

- Campers may only request up to two campers. If more than two campers are provided, **only the first two campers will be honored.**
- Requests must be reciprocal. A Bunk Request Form must be received from each camper identifying the other before the cabin assignment will be guaranteed.
- Campers must be the same age (within 8 months), and the same school grade or within one year of each other. If a camper in a lower grade requests to be with an older camper, the older camper would drop down and be assigned to the lower grade cabin.
- No more than four campers from the same hometown or school will be placed in the same cabin.
- Bunk Requests must be signed by a parent/legal guardian and submitted no later than **May 31st.**

Cabin life is an important part of the summer camp experience, however, keep in mind campers choose all of their activities on their own. They participate in activities with campers of similar ages, and at these activities interact with campers from other cabins. In fact, 90% of waking hours campers spend outside, away from their cabin, where they are encouraged to venture out of their comfort zones and try new activities. Being independent and comfortable meeting new people are valuable life skills that we hope to instill in all our campers.
